Harry and Charles,

I will have the table of discussion issues by tomorrow noon. In addition, I should get the confirmation from GCGCD on my request to release the information that they presented to EPA last week. The GCGCD will attend in person, although their hydrologist will not be present.

Currently here is the list of attendees. I'm still awaiting a list of attendees from Goliad County. Let me know any additions or corrections to the list of attendees.

Thank you,
Stacey
